

## AL Personal Choices

The Personal Choices program is Alabama's option for self-directed home and community-based services and is based on a national model of self-direction called the Cash and Counseling program. It is designed to offer seniors and people with disabilities more choice and flexibility in the type of care they receive. Personal Choices fosters independence as participants have greater control over their finances and decisions directly related to their care.

As the assigned Financial Intermediary, Allied Community Resources is responsible for but not limited to:

- Enrollment with Federal and State entities as a household employer.
- Employment verification/documentation for household employers' employees.
- Assistance with plan management
- Payroll and reimbursements for household employers' employees.
